Fishing

→ First Class Service

Thistle Group have a first class service be it design, manufacture, cranes, winches, seine net, handling systems or power packs, technical advice and support. This therefore offers profitable solutions backed up by our extensive service network that is both technically and geographically matched to our customers requirements whether it be vessels, quayside facilities or fish farms.

In addition to the new equipment that is either supplied or installed, we are also a major supplier of reconditioned deck gear.

Hydraulic service and repairs are carried out by our team of highly skilled engineers either on site or we can network to suit customer requirements. The skills of our employees are developed continually to ensure that we are the best at what we do.
