

## Oil & Gas Related Services

Thistle Group have worked closely with the oil sector since 2005, designing and manufacturing a wide range of material handling equipment to suit individual specifications for all working environments.

Thistle can offer the complete package backed up by excellent after sales and service.

### → Pipe Handling Systems

Thistle develop and customise a range of oilfield, portable, modular tubular handling systems that include:

- Fixed & mobile conveyor feed stands.
- Self contained feed/kicker/alignment stands.
- Self contained tubular straighteners.
- Tubular auto-drift inspection frames.
- Lathe/CNC centre feed/rotator handling frames.

### → Service and Repair

Our dedicated team can offer service and repair of all types of hydraulic and mechanical equipment either at one of our fully equipped workshops or onsite service, depending on individual customer requirements.

Our team are available 24 hours a day, 7 days a week on a global scale.

↗ Winch Core Repair.

Repair of winch core including machining, welding/fabrication & fitting of brake ring and gear wheel.

To improve our current service we now boast a new addition to our motor fleet for onsite hose assembly and repair.

↗ Complete stripping of hydraulic pipework and replacing with new, for large supply vessel.

↘ Pipe Handling System.

### → Fully Fitted Mobile Hose Manufacture and Repair Unit.

- Hose cutting & swaging to 2" multi-spiral.
- Competitive prices.
- Fast effective call out service.

Rapid response mobile hose repair services. ↘

↗ This Guerra Crane was installed on the new windmill project "Beatrice".

### → Installation

Our impressive service includes the installation of all hydraulic equipment whether it be Thistle manufactured or customer sourced.

We can offer the full installation service including welding and fabrication, machining and hydraulic installation. Our large stockholding and fully equipped work shops allows us to carry out major installations to a high standard and improve on customer downtime combined with competitive prices.

## Overhaul & Refurbishment

Thistle Group benefit from having a large machine capacity backed by a highly skilled and professional engineering team.

The ability to adapt, convert and re-furbish winch and lifting systems to suit specific application types is one of the Groups core strengths.

Thistle work closely with oil and gas service companies to make sure that requirements and projects are understood and actioned both professionally and efficiently, resulting in repeat business and customer satisfaction.

➤ McCartney Winch: overhaul and refurbishment.

➤ Bonfiglioli Crane: in need of full bottom-up overhaul.....now completely refurbished and ready to work.

➤ A-Frame Launch & Recovery System before refurbishment and after.

### → Our Comprehensive Service

Thistle provide equipment testing, certification, fast response and cost effective solutions. Reduce your operational downtime; Thistle are major parts and components suppliers.

Employee skills are developed continually to ensure that Thistle is the best at what it does, in an industry that it knows best.

- Working to the highest standards.
- Proven capability and industry knowledge.
- On time and within budget.
